Beim Motorrad werden folgende Informationen benötigt:

If you wish to send a bag or box containing your riding gear, a detailed list of the bag's contents must be provided. Furthermore, I also require a photo clearly showing the bag and each item of clothing.

Here is an example photo and list of contents. Please ensure the background is as neutral as possible. The total weight of the bag and its contents must also be stated.

If this information does not match, significant problems may arise when crossing the border. Should any discrepancies or false declarations be discovered during an inspection, all incorrectly declared goods will be confiscated!

Due to Turkish customs regulations, no liquids or spare parts may be carried in the bag.

Motorcycle Delivery

The motorcycle must be delivered to us by the above-mentioned date! This is absolutely necessary, as the entire shipment must be inspected and processed by the local customs office before departure!

If delivery is not possible for you, optional collection before the race and delivery after the race are available for a fee. These costs will be invoiced separately.

Prices depend on the distance from our location.

Green area up to 250km:

- 75€ per motorcycle

Orange area up to 500 km:

- 125€ per motorcycle

We will try to offer the most central pick-up point possible based on the number of participants. A minimum of **3 motorcycles** is required at all pick-up locations! Please contact us in good time to arrange a possible pick-up.

On the return journey from Turkey, the motorcycles can be unloaded along our route, as a further inspection at the local customs office is not required.

The prices listed above apply to either the pick-up or delivery of the motorcycles at the respective pick-up point. This means, for example, that pick-up or delivery to/from Cologne costs a total of 250€.

If you have any further questions, please feel free to contact us via email, WhatsApp or phone!
